CALGARY ORCHESTRAL SOCIETY RENDERED A SPLENDID PROGRAMME

The Ladies Aid of Strathmore United Church are to be congratulated upon again giving the community on Thursday evening last, an opportunity to enjoy a programme of musical excellence such as was provided by the Calgary Orchestral Society with St. Stephen's Choristers, and other supporting artists, all under the direction of Conductor Bower.

The Memorial Hall seated comfortably the music-lovers of Strathmore, and would, doubtless, have been filled to capacity were not the farmers in the vicinity taking fullest advantage of this long delayed good farming weather.

The programme offered was a pleasantly varied one, consisting of orchestral selections, chorals, instrumental quartette and solos, lightened by humorous songs and recitations, preceded by the playing of "O Canada", and ending sturdily enough with the Empire's Anthem "God Save the King".

The little group of boy choristers from St. Stephen's Church, Calgary, gave "God Sent the Night" with good effect, and responded to an encore with a Farnyard selection, sung in unison, from an old English collection dated about 1600 A.D. The boys' enunciation was distinct, and their voices were fresh and clear, and they sang with that noticeably detached, unemotional quality which we are accustomed to associate with the vocal efforts of boys' choirs. Master Teddy Townsend, who was born in this district, has a voice noticable for its purity of tone.

Miss Florence Garrett, of Strathmore, acquitted herself at the piano, as usually surpassingly well, having no respond with an encore to her rendering of Grieg's E Minor Sonata, which we are told is one of the Musical Festival test numbers. Miss Garrett's style is broadening considerably and one wishes that on Thursday evening her piano had been more advantageously placed. However, her clear, incisive right-hand work withstood the test and brought the melody to the audience in spite of obstacles.

Miss McGill, of Calgary, entertained with humorous recitations, in the first of which, "Breaking the News," she took the part of a darkey coachman; this was well received, and she further charmed as a little celestial, Ah Cid. Her next number, "Seein' Things at Night' (Illey) was very well given Indeed, and she capped her efforts with the encore number "Is Matrimony a Failure?" leaving her audience, apparently, in some doubt.

Songs by Mr. George Wallace, reputedly of Calgary (but one would gather, rather recently of somewhere in Scotland') were received with over-whelming and, in one place, vociferous applause. Mr. Wallace, while displaying no particular vocal power or range, sang with a sufficiently pleasing voice, and with such a deliciously "pawky" humor, pointing his songs with occasional pertinent anecdotes ("guid anea") that his audience were entranced, and could have listened indefinitely.

The saxaphone quartette gave a good account of themselves, showing us that this much maligned instrument has, indeed, its better moments. They were applauded, and attacked their second selection with more confidence than was evident in the treatment of their first.

The offerings of the orchestra were, naturally, supremely interesting, and were, with one exception, those that might have been selected by a very fine military band. Schubert's overture to "Rosamunde", the exception mentioned, was pleasingly rendered and a credit to Conductor Bower, especially so as it is evident that the members of his string section, with one or two exceptions, lack in individual virtuosity, thus impairing the quality of tone that might have been expected had this section equalled or even approached the excellence of the wind and percussion sections. The Conductor of this organization relies for his best effects on his ensemble, which is excellent. The Scottish "Wee McGregor" being given with perfect attack, crescendo climax, and de-crescendo, in fact in a manner beyond criticism from beginning to end. Other selections were well received. "In a Persian Market" being replete with Oriental colour and suggestion, bringing out the keening of the one-stringed native instruments, and the swarming shifting scenes of a colorful bazaar.

Two other patrols, "In Coonland" with syncopated humor, and "Canadian" were well done, the construction of the latter being more intricate than is usual in patriotic numbers to thrill "all hands and the cook", but the excellent phrasing and conscientious execution of the orchestra brought out each separate theme in Mosaic.

One is inclined to compare the work of this orchestra with that of the best English regimental bands, on account of its irresistible logical virility. In any event, Mr. Bower's magnetic conducting has evolved, not strictly an orchestra as such, but a combination of band and orchestral effects, which, apparently, is eminently satisfactory to his western audiences, and may, perhaps, be considered symbolic of our development.

We trust that we may have the pleasure of welcoming the organization again.

WHEAT POOL NEWS BULLETIN

A meeting of the delegates of the Alberta Wheat Pool will be held on Tuesday, May 29th, in Calgary for the purpose of considering Coarse Grains Pool for Alberta, policy of the Pool elevator system for the coming season, the re sign campaign, and any other matters of general interest to the Pool.

Over 600 men are now working on the new terminal elevator being erected by the Alberta Wheat Pool at Vancouver. This elevator will be completed by September 1st.

Rapid extension of the Alberta Wheat Pool elevator system is being undertaken this year. Eighteen country elevators are now being built and eight have been purchased. The system will be extended by the addition of at least a hundred elevators this year. Experience in operating the Wheat Pool has shown that line and terminal elevators are imperatively required in order that members may b given the greatest possible protection, that wanted grades of wheat may be readily obtainable when the demand has arisen, and that the greatest possible savings may be effected.

Music Recital At Langdon

Mothers and friends, numbering a hundred or more, gathered in the I.O.O.F. Hall Tuesday of Easter week for the Annal Music Recital given by Mrs. J. Brander's pupils.

Mrs C. Anderson, as chairman, introduced each pupil, and in a few well chosen words, told of the splendid work Mrs. Brander is doing in the community. The program was varied and pleasing, showing much progress since a year ago. Mrs. Anderson presented the diplomas won by the pupils in the Toronto Conservatory examinations, after which Kermit Moe and Audrey McNeil presented Mrs. Brander with a gift from her pupils, who all came to the platform while "God Save the King' was sung.

Refreshments were served, and the afternoon was voted one of the very pleasantest and most worth-while affairs of the year.

Programme

Duet, Katherine Moe and Victoria Barron, "La Vivandiere".

Solo, Marjorie Shaw, "Breath of Autumn".

Solo, Kermit Moe, "Le Roi due Village", by Carl Heins.

Duet, Jean and Maisie Chalmers, "Dance of the Rosebuds".

Solo, Helen Armstrong, "Bluebird Waltz".

Solo, Ruby Welsheimer, "At Evening", by A. Sartorio.

Solo, Richard Bittle, "Merry Peasant", by Schumann.

Solo, Margaret Henderson, "Pink", by Lichner.

Duet, Mavis and Ione Anderson, "Jolly Darkies", by Belcher.

Solo, Alexander Brander, "Morning Song", by Ashford.

Solo, Kathleen Lee, "Whispering of Love", by C. Kinkel.

Solo, Albert Bishop, "Scount's Waltz".

Duet, Doris Tanner and Velma Stoutenberg, "March in C", by J. Rummel.

Solo, Ada Dye, "Wayside Chapel", by G. D. Wilson.

Solo, Verna Peterson, "Dancing Waves".

Trio, Helen, Edith and Ruth Higley, "Forward March", by Mathilda Bilbro.

Solo, Audrey McNeil, "Sonatina", by Kuhlan.

Solo, Katherine Moe, "Gypsy Rondo" by J. Haydn.

Solo, John Brander, "Skating", by C. Kleen.

Solo, Kathleen Snider, "Paramour", by Carl Heins.

Solo, Marion Armstrong, "Perpetual Rose".

Duet, Kathleen Lee and Katherine Moe, "Melody of Love," by H. Engleman.

Solo, Dorothy Webb, "Nita Masurka" by Stiveabor.

Solo, Betty Snider, "Priscilla" by M. Bilbro.

Solo, Marion Bennett, "Country Dance," by Arnoldo Sartorio.

Solo, Jean Whitney, "Sans Souci", by Lichner.

Solo, Muriel Hiatt, "Curious Story", by Heller.

Solo, Margaret Brander, "Frolics", by Von Wilm.

Solo, Victoria Barron, "Bright Star of Heaven".

Duet, Marjorie Shaw and Victoria Barron, "Laughing Waters", by C. Millington.

God Save the King.

Ladies Golt Club Gross Score Club

Draw for Second Round of Gross Score Cup, to be played May 9th:

Miss McGinnis with Mrs. Shrimpton.
Miss Hughes with Mrs. Lambert.
Miss Vanderdorn with Mrs. Perry.
Mrs. Strong with Mrs. Chamberlain.
Miss Gibson with Mrs. Stockton.
Miss Brown with Mrs. Brown.
Mrs. Whiteside with Mrs. Van Tighem.
Mrs. McFarland with Mrs. Wright.

Third Round for Gross Score Cup, May 16th:

Mrs. Van Tighem with Mrs. Wright.
Miss Strong with Miss Brown.
Mrs. McFarland with Mrs. Perry.
Mrs. Chamberlain with Mrs. Lambert.
Mrs. Shrimpton with Miss Vanderdorn.
Miss McGinnis with Miss Hughes.
Mrs. Whiteside with Mrs. Stockton.
Mrs. Brown with Miss Gibson.

Please arrange with your partner as to time of playing, and, if unable to play telephone the captain, Mrs. Van Tighem as early as possible

Score cards for the games will be left in the sandbox at the first tee.

Boxing Match May 12

Tommy White has lined up a classy lot of candidates for his Boxing Contest in the Memorial Hall on Saturday night, May 12.

The headliner will be Mel Cowie defending his championship against Young Gore, in a ten round battle. Cowie is a favorite in Strathmore, and is a beautiful boxer, hence Young Gore will have to step fast if he can defeat Cowie.

Bob Cannuck and Ferguson, who have made fine reputations in the amateur ranks are just breaking into the professional game, and there is every reason to expect a fast and classy contest between these two boys.

The opening preliminaries with Bow Valley boys will be most interesting. Remember the date, May 12th.

LARGE INCREASE IN ALBERTA'S EXPORTS

An increase of $40,768,160 in the value of crop and livestock products actually exported from Alberta during the crop year 1927-28 as compared with the year 1926-27 is shown in a publication recently issued by the W. Sanford Evans Statistical Service of Winnipeg. The total value of the grain and livestock shipped from the province in the crop year 1927-28 is placed at $150,980,167 as compared with $110,212,007 in the previous year.

Increased exports are shown from each of the eight crop districts into which Alberta has been divided for the purpose of the report. Figures for the nine districts in Saskatchewan show total returns in 1927-28 of $233,218,016 as compared with $227,-614,526 in 1926-27, an increase of $5,603,490, while Manitoba shows a decline of $24,019,513, the respective figures being $46,684,2115 in 1927-28 and $70,703,828 in 1926-27.

THE TOWN COUNCIL HELD REGULAR MEETING

On Tuesday evening the Strathmore Council held a regular meeting, and for a moment, the proceedings were held up owing to the absence from town of Mayor Shrimpton, and the term of office of Deputy Mayor Miner having expired at midnight on April 30th.

Deputy Mayor Miner had come to the meeting "all dolled up and rarin' to go", knowing that the Mayor was away, but that capable "watch dog of the treasury" T. M. Wears, would not have it so, and insisted upon a new Deputy Mayor being appointed, which, upon resolution, appointed George Quirin to that office for the months of May, June and July.

The genial Councillor in his most dignified manner, took the chair, and business proceeded in due form.

The minutes of the last meeting were confirmed.

A communication was received from the United Electrical Co. which carried glad tidings of good news, Inas much as that company will grant a reduction of lighting rates beginning the month of October, from 20c to 18c, and they also propose making a reduction in power rates at the same time. These reductions must first have the endorsation of the Board of Utilities at Edmonton.

A letter was read from E R. Jackson, Government Engineer, stating that they have not a survey of the road known as Bailey Boulevard, but that they will have one of their townsite engineers make the necessary survey, and further, that if the price is right, that they will be agreeable to having the work done by local labor.

The secretary of the Women's Institute, Mrs. Hinchliffe, notified the Council that they will not require the lot on Second Street for a building for the Rest Room.

The Secretary-Treasurer informed the Council that collections for the month of April amounted to $657, and the balance in general fund on April 30th, was $1258, and school fund, $794.

Permission was granted for the use of lots for gardening to Paul Christensen and B. H. Pattemore.

A motion was passed cancelling the arrears of taxes upon the lots that recently came into possession of the Town, under the Tax Recovery proceedings.

Three appeals have been received against the assessment, and a Court of Revision will be held on June 5th.

A motion was passed requesting that the Canadian Pacific Railway be requested to improve the road conditions leading to the elevators, which is on their property. This was done upon the request of several farmers and ratepayers.

After considerable discussion, it was decided to spend about $350 on Railway Avenue. Good ditches will be provided from the station to the school, culverts replaced, and the road graded. The Irrigation Department will rent one of their big machines if the work is started at once.

Tenders for collecting garbage were opened, as follows: Oliver Wright, $300; Percy Wright $390 and $25 to clean up nuisance ground; J. H. Robertson, $300; John Cleeve, $350; and Chas. Keeling, $420. The tender was awarded to Percy Wright.

Current accounts amounting to about $50 were recommended for payment.

The matter of the Globe Oil Co. starting building operations on Second Street without first getting a permit, was brought up, and such methods met with general disapproval. They will be notified to stop work and not proceed until plans have been submitted and permit granted.

Second Round Men's Golf Tournament

The second round for the Men's Gross Score Trophy will be played on Sunday next, May 6th, 18 holes medal (or stroke) play. Cards with the players names, will be found in a box at the first tee. The draw for fellow players is as follows:

F. J. Dunn with G. H. Patrick.
J. Van Tighem with E. Whiteside
W. Gray with R. S. Stockton.
T. E. Wright with Archie Gray.
Alec Gray Jr. with Leslie West.
W. Paterson with Walter Gray.
C. Lydiatt with Alec Gray Sr.
D. Perry with Wm. Harrison.

The first round for the Consolation prize will also be played on Sunday, May 6th, 9 holes, medal or stroke play. The draw for fellow-players is as follows:

A. Pierson with Geo. Jones.
E. N. Ridley with F. Young.
J. Gannon with F. Benz.
G. Quirin with H. Rellinger.
A. McKechnie with Sid Moore.
G. Giroux with J. Kimmell.
D. McGlashan with F. Cott.
D. Lundie with T. Chamberlain Jr.
J. Downie with Geo. Adams.
W. Knyvett with Alec Gray (C.P.R.)
L. Jones with C. Pederson.
T. Gatenby with A. Fraser.
H. McGregor with A. D. Shrimpton.
R. A. Brown with Mr. Hayden.

Cards will be found at first tee. Please total your card, sign your fellow player's card and drop both in the box at the gate.

CALGARY TO HAVE IMPROVED TOURIST CAMP

The Calgary Automobile Club is planning to equip and operate the most modern automobile tourist camp in western Canada this summer, it is announced by F. R. Brason, president of the Club. A splendid site is being selected, and the camp will be equipped with light, gas, water, shower baths, cookstoves, car shelters and other conveniences for the accommodation of motor tourists.

Coming Events

Strathmore School District School Fair, September 13.

* * *

Keoma-Kathryn School Fair (two days), September 14th and 15th.

Bott, Independent	296

Later Mr. Lang, Liberal, was declared elected.

Keep Money in your Own Town

STRATHMORE SCHOOL FAIR, SEPTEMBER 13

First Impressions Undoubtedly Count

OF course you've heard this before Whether it's a social gathering or a business encounter the first impression given of grooming and general well-being is the thing that can't easily be destroyed.

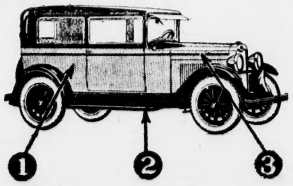
Hobberlin tailoring always gives the right impression from the first—because the cloth is right, the tailoring right and the style right.

THE NEW PATTERNS ARE WELL WORTH SEEING.

Thos. E. Wright

"MEN'S BETTER WEAR"

THE HIDDEN PLACES WHERE QUALITY COUNTS MOST



1 Body The emblem "Body by Fisher" stands for modern styling, safe, substantial construction . . . lasting beauty, and a score of important contributions to your comfort.

2 Chassis Compare the "Bigger and Better" Chevrolet Chassis with any other car in the low-price field. Look at its rugged, 4½" deep steel frame, its sturdy cross members, its long semi-elliptic, shock-absorber springs, its safety gasoline tank in rear, its one-piece, banjo-type rear axle of enormous strength and ready accessibility. Check the four-wheel braking system and the independent set of emergency brakes.

3 Engine Look beneath the stylish hood of the "Bigger and Better" Chevrolet. See that sturdy, valve-in-head engine (the most powerful type of automobile engine yet designed), fully enclosed and protected. Note the AC Oil Filter, the AC Air Cleaner, Crankcase Breather System, Oil Pump. Notice the new alloy "invar-strut" pistons . . . the new hydro-laminated camshaft gears . . . the high grade electrical equipment. C-28-4-28

The G.M.A.C. . . . General Motors' own deferred payment plan affords the most convenient and economical way of buying your Chevrolet on time.

SPORT NOTES

WON'T NEED TO WORRY

—o—

CHICAGO—Percy Lee Jones, pitcher for the Chicago Cubs, came for the opening home game $500,000 richer. He has just inherited a half million-dollar estate, willed him by a grandmother, who died recently in Georgia.

—o—

TEACHING THE WIFE

—o—

By Edgar E. Guest

He was giving her a lesson as I chanced to walk that way
And I heard him shouting: "Woman, will ye mind the things I say?
You're a flubbing, dubbing female, and you will be till you die
I can never teach you, and a fool I was to try."

Then the lady turned upon him: "Other women hit the ball,
And I've watched them and I tell you they don't hit your way at all."
"There you go again," he shouted just as angry as could be,
"You'll try anything they tell you but you pay no heed to me."

Then she took her clubs and left him and I said unto the pro:
"I was startled by your language, do you handle ladies so?"
And he turned upon me sadly: "That's the curse of married life
All man ever gets is battle when he tries to teach his wife."

NOTE—No, this has not any reference to Ernie Whiteside; his wife has him "shackled" much better.

—o—

PEARCE, ANTIPODEAN, IS NOT OVERRATED

—o—

PHILADELPHIA, Pa.—Major Goodsell of Sydney, Australia, former world's professional sculling champion who has been visiting Coach Rusty Callow of Pennsylvania, insists the next Olympic single sculls champion will be Bobby Pearce, a youngster from Sydney and son of Harry Pearce, a former world's pro. titleholder.

"I've heard a lot about Joe Wright Jr., of Toronto, since I landed in this country last fall for my race with Bert Barry," said Goodsell, "but I feel sure I can name the next Olympic champion at Amsterdam; I refer to Bobby Pearce who has beaten the pick of Australian amateur scullers and is good enough to clean up in the Olympics. He comes from a rowing family and has been rowing 3½ mile races for the last few years. The Olympic distance will be easy for him. He is big and strong and a pretty sculler to look at."

Major Goodsell, who was dethroned by Barry, the young Englishman, at Vancouver, B.C., last Dec. 26, after decisively beating Barry in their first race Sept. 15 over the same course, is considering issuing another challenge for a match in England. He claims he has plenty of backing, but since coming east has been tentatively offered a coaching position at one of the smaller colleges and may decide to give up professional sculling for all time.

—o—

APOPLEXY IN THE GIANTS' OFFICE

—o—

Judge Emil Fuchs, President of the Boston National League Club, is a practical joker of parts. He "started something" in the office of the New York Giants the other day, after Andy Cohen's triumphal debut. The ex-Buffalo infielder had been carried off the field on the shoulders of admirers when Judge Fuchs strolled into the New York business office. Addressing an official of the Gotham club, he said: "I heard some bad news about your club today. It seems that Andy Cohen's father is a man of strict religious principles, and has refused to allow his son to play on Saturday, which is the Jewish Sunday. That certainly is a terrible break for the Giants, getting a popular young fellow like this Cohen ——." But by that time the Giant official had passed off in a swoon, and was only revived after the young Jewish player explained that he would play every day in the week.

BILL BUXTON

—o—

Bill Buxton, proprietor of the Alexandra Hotel, is an ardent boxing enthusiast and sporting events in general. He has donated several boxing belts, one of which is held by Mel Cowle, which he will defend against Young Gore at the Memorial Hall, Strathmore, on Saturday, May 12th. He has promised to be at the ringside at this event, together with a number of his Calgary sporting friends, who are fully as much interested in the Canuck vs. Ferguson semi wind-up as they are in the main event, as these two boys have just entered the professional field.

Nels Ferguson, amateur light-weight champion of Alberta, is well known and is one of the most popular performers in these parts. He likes to fight and always gives the fans plenty of action from the first gong to the last. He is the possessor of a powerful right-hand punch, and has dropped many heavier boys in gymnasium workouts. He has won three Alberta amateur championships.

Bob Canuck came from Moose Jaw several months ago and in his first appearance in Calgary made a big hit with the boxing fans. Although only weighing 126 pounds he entered both the lightweights and novice welterweight divisions in the recent Alberta championships. He made a cleanup in the welterweight division, but owing to a hand injury was unable to meet Ferguson in the final of the lightweight class.

—o—

HOMING GOLF BALLS

—o—

Golfers have come a step nearer the ultimate. The unlosable golf ball has been patented. No matter where it is driven—on the fairway, in the rough or into the innermost depths of the most hazardous hazard—it will come, figuratively speaking, romping back like a tousled collie who has had a dip in the surf. The formula of the inventor is comparatively simple. By application of the process, golf balls that have strayed from their owners may be found by asserting themselves to the sight, smell or hearing.

Fancy hearing a lost golf ball calling to its master! But that is precisely what this inventor contemplates. The ball is covered or immersed in a pyrotechnic solution similar to the material from which "spit-devils"—used by small boys on the Fourth of July—are made. When the ball is struck it fulminates and continues to splutter and crackle for some minutes, or perhaps moments, thereby enabling the golfer to find it. If that device is unsatisfactory, or annoys the owner who objects to hearing little golf balls calling for him, he may immerse the ball, before teeing off, in a solution of phosphorus and carbon bisulphide. As the solvent evaporates the phosphorus will emit a perceptible glow, even in daylight. If the golfer wants to play at night, so be it.

But the most aesthetic appeal of the unlosable golf ball is through the sense of smell. The ball is coated with some of the essential oils such as attar of roses—expensive? yes, but what matters that to the ardent golfer?—and thereby gives off a pleasing and pervading aroma.—The Monitor.

Imagine Ernie Whiteside and Ed. Ridley meeting in the rough searching for balls that have strayed beyond their ken.

"Ah," Ernie may say, sniffing politely, then adding:

"Sorry and thanks, old chap, but that's not mine. I'm using black narcissus. That's obviously violet." Then after a moment or two, meeting Jos. Van Tighem, one of the golfers may say: "I say, old chap, if you're using violet this season you'll find the ball over by the slough."

Why Firestone Tires Give You Most Miles Per Dollar

The greatest enemy to tire life is *not* the harsh grind of city streets or rough roads but *heat* which is created inside the tire by internal friction. Heat not only weakens the fabric, but also softens the rubber causing blowouts and tire failures.

The exclusive Firestone Gum-Dipping process prevents internal heat. Every fibre of every cord is insulated and impregnated with rubber, which prevents internal friction and at the same time binds the cords together by a stronger union of rubber, thus giving greater strength and flexibility to the tire.

Take advantage of the Gum-Dipping process to lower your tire costs this year. Your local Firestone Dealer not only supplies you with these better tires that cost no more, but also gives the better service that enables you to benefit from every extra mile built in at the factory.

C. A. MAGRATH URGES COLONIZATION FREE FROM POLITICS

—o—

LONDON, Ont.—Canada should be prepared to spend half a billion dollars on colonization, C. A. Magrath, Chairman of the Hydro-Electric Commission of Ontario, told the Canadian Club of London. Mr. Magrath declared that Canada, with the co-operation of the Provinces, should be prepared to set up a national colonizing agency to bring people to Canada, and this agency should be removed from politics and headed by the best available business administration. It should be controlled by the Government so as to keep out the wrong type of settler, and should assist the proper class to settle on the land.

British Still Capable

Mr. Magrath differed from Mr. Black of the C.N.R., who was quoted as having said that apparently the British had lost the genius for pioneering. "I do not agree with that opinion at all," he said. "The Great War made it abundantly clear that the British people are just as capable today in every way as they were in former years. I have been asked to refer to colonization plans advanced by others in recent weeks, Sir Henry Thornton, for instance, is said to have suggested increasing railway tariffs by about 5 per cent., thereby obtaining twenty million dollars yearly, which he would use in the advancement of colonization. That I believe to be, in substance, his plan.

"Sir Henry and I are in agreement in one important essential: that is, that large expenditures of money are necessary for colonization purposes. An increase of ten million people in the producing population of Canada will solve our railway problem without recourse to transportation subsidies or uneconomic makeshifts.

Must Use Credit

"It is of interest to note also," continued Mr. Magrath, "that General McRae, M.P., within the past few days brought forward a suggestion in the House of Commons for reclaiming what might be termed marginal lands. In that connection he suggests the use of the credit of the country to the extent of three hundred millions. He likewise believes that Canada must use its credit in money to carry forward any real colonization policy.

Sees Conditions Reversed

"My belief is that all things considered, there is no other country in the world today that offers the opportunities that are to be found in Canada. Hence let us at once accept it as a fact that the day is not far distant when we will have difficulty in keeping people out of Canada. My view is that the national organization should seek people wishing to make their home on the land, giving the preference to our own Canadians. Next in order I wold place British settlers, and, after that, people from other selected countries, who are prepared to go on the land and stay there until they have achieved a competence. That is the task for a great national organization, in which the credit of the country should be used. I believe I can see the day when $500,000,000 might to advantage be placed in circulation over a set term of years rather than the $300,000,000 suggested by General McRae."

I Saw Last Week

M. S. HIRTLE coaxing Jim Swanson to take a rest on the Strathmore Hotel job, but Jim wouldn't ease up. T. E. WRIGHT discussing stampede affairs with W. S. Paterson. GORDON LYDIATT sporting a brand new bicycle. REEVE CHAMBERLAIN and JOHN TAYLOR having a consultation about a road grader. PERCY PARISH giving John the Bulgarian, John Vermont and Casey Nerring a few pointers on the wheat market. TOMMY WHITE, the boxing promoter in town on Sunday, very anxiously enquiring how to get out to Bell's farm, and everyone was wondering why the hurry. BILL WILKINSON and PERCY PARISH having a pink tea at Hector McGregor's. Bill split the cake while Percy served the ices. GENE GIROUX arriving in town with a big tractor, and he allowed Bill Wilkinson to use "the bleeding war tank" to bring in a load of young "Hudson Seals" D. N. GARDINER having an early interview with Deputy Minister Spence at Calgary. RAY PRINCE getting on the good side of Councillor Harry Miner by telling what the ladies say about the latter. JIM MORAN looking for an axe to kill the Calgary Jew who wakened him at 5 a.m. and offered him six bits apiece for his prime skins taken from his milk fed muskrats. A LOT OF FELLOWS getting their income tax reports returned for lack of sufficient postage. The King makes no advances of postage. JIM WEIR taking light exercise fixing up the Tennis Courts. RAY PRINCE making a decision between carpentering and playing tennis, and the tennis lost out. INSPECTOR BUCHANAN proceeding to the Strathmore Schools to give the local educational centre an official inspection. J. H. MARTIN coaxing Frank Seales to give him prompt and efficient service. FRED J. DUNN up with the larks, out before breakfast cleaning the office windows. EX-MINISTER OF PUBLIC WORKS making the average up to the minute golf. Ter very jealous when saying what he [illegible] thought of the fellow who got stuck [illegible] people's car on Bailey Boulevard, and [illegible] on. Dick went back and hitched [illegible] team to help pull him out, but [illegible] The story returned the bird had gone. TH[illegible] VELLING HEALTH CLINICS PREPARE FOR SEASON

—o—

Itineraries for the two travelling health clinics to be sent out this summer by the provincial Department of Health are now being drawn up. It is expected to begin the season's work at High Prairie on or about May 8, with other points in the near north and Peace River district following. Some 80 centres all over the province are on the list for clinics this year, which is approximately double the number covered last year. The increased service will be possible through the addition of a second party to the working force, the intention being for the two to work in close conjunction throughout the season.

The clinics will function this summer on the same basis as last year. Diagnostic and educational work will be stressed, and operations will be performed as found necessary among the children, cases requiring prolonged or follow-up treatment being referred to the local physicians. Each party will comprise a surgeon, dentist and three nurses. Only points will be visited from which requests have been made by the local school boards or municipal authorities.

—o—

392-MILE NONSTOP RUN TO BE MADE BY BRITISH TRAINS

—o—

LONDON—A fresh nonstop train record for Great Britain of 392 miles from London to Edinburgh is to be set up shortly when the London & North Eastern Railway Company commences the regular running of this service. This is announced in an official time-table now published by this line.

The train in question is to leave King's Cross, London, at 10 a.m. and reach Waverley Station Edinburgh, at 6.15 p.m. The engine to draw the nonstop train, it is claimed, is the first locomotive tender constructed with a corridor connecting with the body of the train to enable the engine driver and stoker to be relieved en route, it being found to be too great a strain for one set of men to be on duty the whole of the run.

The 10 a.m. train from Edinburgh to King's Cross will also make a nonstop run, reaching King's Cross at 6 p.m.

ORANGES, fresh and juicy, 3 dozen for $1.00

WHEAT CARGOES SOUGHT FOR AMERICAN PORTS

—o—

WASHINGTON—Promotion of American grain shipping from American ports is to be undertaken by the Department of Agriculture and leaders in Congress.

A series of conferences have been held between William M. Jardine, Secretary of Agriculture, and senators from Atlantic coast states at which legislation embodying a new American policy for grain shipments was agreed upon.

According to these senators and officials of the Department of Agriculture, existing regulations governing grain shipments from American ports are "drying up" such exports in favor of Canadian ports.

The American shipper, when exporting through American ports, is "docked" for sand, dirt and other extraneous matter found in his grain. He is not compelled to bear such an assessment when his commodity is sent through a Canadian port.

Mr. Jardine is not in favor of giving up the American grading and inspecting service, but he is desirous of having American grain shipped from American ports. The Secretary of Agriculture holds that it is to the advantage of American wheat to have it enter the world market known as the cleanest and best.

Last year 92,000,000 bushels of American wheat were exported through Montreal, as against 40,000,000 of American wheat for all the American ports combined. If this American wheat had passed through American ports, they would have profited by $1,000,000.

GOVERNMENT TELEPHONE BUSINESS GROWING

—o—

A net increase of 448 new stations made up of 449 additional exchange stations and 51 fewer rurals is reported by the Head Office of the Alberta Government Telephone System for the first three months of the present year. New offices were opened during the month of March at Esther, Little Gem, and Hemaruka and continuous service was instituted at Wayne. Arrangements are now being made for the extension of the Branch of the C.N.R. and to Willingdon, Musidora, Derwent and Beauvallon on the C.P.R. Cutknife-Whitford line. Collections have been good during the month of March showing an increase of $21,000 over the corresponding month in 1927.

—o—

PREPARING WHEAT MAP FOR PRAIRIE PROVINCES

—o—

OTTAWA—Data for the preparation of a wheat map for the prairie provinces is now being collected by the department of agriculture. L. H. Newman, Dominion cerealist, giving evidence before the house agriculture committee told of the scheme. The [illegible] would tell the grain growers at a glance just what variety could be grown in a district with the greatest assurance. Mr. Newman in illustration observed that if Garnet had been grown last year in certain parts of Alberta, it would have meant millions of dollars difference to the province.

Mr. Newman gave some further details also of Reward, the new wheat for rust districts of which a thousand bushels for trial were distributed last year. Mr. Newman spoke hopefully of Reward. It could not be said that Reward would solve the rust problem, but Mr. Newman thought it marked a considerable advance.

POPE WILL CELEBRATE GOLDEN JUBILEE IN 1929

—o—

His Holiness Pope Pius XI, if spared until December, 1929, will celebrate the golden Jubilee of his ordination to the priesthood. There is general activity all over the world to make that event noteworthy. One of the enterprises is to raise the balance of the funds and complete the College of the Propaganda in Rome. That institution was founded in 1627 to Pope Urban VIII, and dedicated to the education of young men of all nations to be foreign missionaries. It has occupied a site which because of the congestion of the city has become unsuitable. A new location on one of the seven hills has been secured and temporary buildings occupied. Money has been borrowed chiefly in Chicago, and Cardinal Mundelein and Mgr. Shiel, chancellor of the archdiocese of that city, have been to Rome to finance the

The amusement program was led by Mrs. [illegible]ation to put the members to work on a guessing competition, the winners being Mrs. Charlie Dawson and Mrs. Horrocks, who tied. Each member was given fifty cents, and had to make this into $1.50, and bring back the funds. Here's luck.

A delicious lunch was served by our hostess; with three visitors being present.

The next meeting will be held at the home of Mrs. Gothard on May 9th. This is to be a special afternoon, and we invite everyone to come that possibly can, as we are to have the first and second vice-presidents of our U.F.W.A. organization, Mrs. Wyman and Mrs. Field present at this meeting, who will speak to us on some subject which will be of interest to us all. Don't forget the date, Wednesday, May 9th, 1928.

building program. The conditions of this loan are that a million and a half dollars will be borrowed at 5 per cent interest, the principal to be paid out of certain funds of the Vatican and wiped out in 20 years. Already two Catholic institutions in Chicago have invested their endowment funds, amounting to $300,000, in the loan.

BELIEVES EUROPE WILL FACE BANKRUPTCY

—o—

outstanding market for its surplus goods and surplus capital.

Paish points out that prior to the [illegible] sible, if only because the world's manufacturing equipment, especially in America, but also in Japan, India and [illegible] has increased, but I feel sure I can name the next Olympic champion at Amsterdam; I refer to Bobby Pearce who has beaten the pick of Australian amateur scullers and is good enough to clean up in the Olympics. He comes from a rowing family and has been rowing 3¾ mile races for the last few years. The Olympic distance will be easy for him. He is big and strong and a pretty sculler to look at."

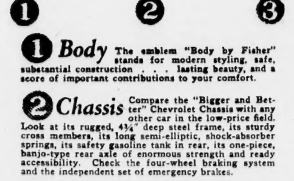
Major Goodsell, who was dethroned by Barry, the young Englishman, at Vancouver, B.C., last Dec. 26, after decisively beating Barry in their first race Sept. 15 over the same course, is considering issuing another challenge for a match in England. He claims he has plenty of backing, but since coming east has been tentatively offered a coaching position at one of the smaller colleges and may decide to give up professional sculling for all time.

—o—

APOPLEXY IN THE GIANTS' OFFICE

—o—

Judge Emil Fuchs, President of the Boston National League Club, is a practical joker of parts. He "started something" in the office of the New York Giants the other day, after Andy Cohen's triumphal debut. The ex-Buffalo infielder had been carried off the field on the shoulders of admirers when Judge Fuchs strolled into the New York business office. Addressing an official of the Gotham club, he said: "I heard some bad news about your club today. It seems that Andy Cohen's father is a man of strict religious principles, and has refused to allow his son to play on Saturday, which is the Jewish Sunday. That certainly is a terrible break for the Giants, getting a popular young fellow like this Cohen ——." But by that time the Giant official had passed off in a swoon, and was only revived after the young Jewish player explained that he would play every day in the week.



1 Body The emblem "Body by Fisher" stands for modern styling, safe, substantial construction . . . lasting beauty, and a score of important contributions to your comfort.

2 Chassis Compare the "Bigger and Better" Chevrolet Chassis with any other car in the low-price field. Look at its rugged, 4¼" deep steel frame, its sturdy cross members, its long semi-elliptic, shock-absorber springs, its safety gasoline tank in rear, its one-piece, banjo-type rear axle of enormous strength and ready accessibility. Check the four-wheel braking system and the independent set of emergency brakes.

3 Engine Look beneath the stylish hood of the "Bigger and Better" Chevrolet. See that sturdy, valve-in-head engine (the most powerful type of automobile engine yet designed), fully enclosed and protected. Note the AC Oil Filter, the AC Air Cleaner, Crankcase Breather System, Oil Pump. Notice the new alloy "invar-strut" pistons . . . the new hydro-laminated camshaft gears . . . the high grade electrical equipment.

C-28-4-28

REGULAR MEETING OF M. D. GRASSWOLD

—o—

A regular meeting of the M. D. of Grasswold was held on above date. All members being present. The minutes of the previous meeting were approved as read.

Pursuant to a committee appointed at the last Council meeting, relative to Rosebud Cemetery, R. W. Brunner reported that the Village of Rosebud was not prepared to take over the cemetery. Mr. A. E. Vigar was on motion hereby appointed to act as cemetery caretaker at Rosebud, remuneration being $2.50 for each and every lot sold.

It was on motion decided that cemetery lots shall be sold at the rate of $10.00 each in accordance with plan registered, and that an attempt be made that said fee be collected from parties now in possession of lots for burial purposes.

The question of Mothers Allowance Act relative to Mrs. Debenski was fully discussed, and it was on motion decided that Mrs. Debenski in the opinion of the council, did not come under this Act.

The question of school grants relative to schools taking part in school fair at Standard was discussed, and it was on motion decided that the grants [illegible] such schools [illegible] Grasswold.

VILLAGE OF ROSEBUD

—o—

PUBLIC NOTICE is hereby given that the following By-law has been introduced in the Council of the Village of Rosebud and that unless within twenty days after the last insertion of this notice at least ten resident electors of the Village petition the Cuncil to submit such By-law to the vote of such resident electors of the Village, the Council will proceed to pass same.

By-law No. 30

By-law of the Village of Rosebud

Respecting the prohibition of animals from running at large. Under the authority and subject to the provisions of the Domestic Animals Act the Council of the Village of Rosebud enact as follows:

Domestic Animals shall be prohibited from running at large in accordance with the following:

Class of Animals

Horse, Mule, Ass, Cattle, Sheep, Pig, Goat, Goose, Poultry;

Period Of Prohibition

At all time of the year.

Area of Prohibition from Running At Large:

All of the Village of Rosebud.

The last date of insertion of this notice is May 9th, 1928.

H. SUMMERS,
Secretary of the Village of Rosebud

EXPERTS BOUGHT FAKE WATCHES

—o—

HAMILTON, Ont.—Sent to New York to inspect engine equipment costing over $100,000 on which they were to give expert opinion, three council members—Aldermen Polson, Offeir and Hodgson—demonstrated their ability to deal with the question when they snapped at watch bargains and discovered on their return home that the time keepers were minus the works. The city council rocked with laughter when Controller Morrison disclosed the incident.

Barr and [illegible] had inspected some damages caused to stooked wheat owned by Mr. Sharp and that in their opinion the damage amounted to $25.00, this damage was alleged to have been done by Mrs. Celta Coles pigs. After due considera[illegible] the council decided that the claim was just, and that Mrs. Cole be asked to pay said damages to Mr. Sharp.

It was moved and carried that wages for running caterpillar engine for the M. D. of Grasswold shall not exceed $8.50 per day.

It was on motion decided that Mr. A. Larsen is hereby engaged to operate the Fordson engine, and the salary to be 60c per hour.

The following resolution was on motion passed:

"Whereas in the year 1927 there was considerable difference of opinion as to where, what, and when the Grader should be in certain districts, therefore, be it resolved that the following schedule shall be followed as near as possible. The Grader to start as follows: District No. 1 then to District No. 6, District No. 5, District No. 2, District No. 3, and District No. 4."

—o—

DEATH OF MR. T. H. CULLEN

It is with the greatest regret that we announce the death of Mr. Tom Cullen, who passed away at Lloydminster Hospital on April 29th.

Mr. Cullen was one of the best-known old timers in the Rockyford District, and his passing will be an irreparable loss to the entire community, for which he has done so much. He was always ready to lend a helping hand to any good cause, and was greatly loved and respected by all who knew him.

He came west in 1882, driving an ox team, and settled at Springbank, west of Calgary, moving into the Rockyford district in 1906.

He is survived by two brothers, Chris, who is well known in Rockyford, and Keys, of Springbank, Mrs. C. Reid, of Swift Current, and Miss Edna Cullen, of Rockyford, for whom the greatest sympathy is felt in their sad bereavement.

The funeral will take place in Calgary on Wednesday, and arrangements are in the hands of Shaver's Undertaking Parlors.

ROCKYFORD

The regular meeting of the Rockyford Ladies Club will meet at the home of Mrs. F. E. Ryan on May 10. Mrs. Kattenbach will give a demonstration on the making of lamp shades. Come and join our club.

• • •

This week has seen great activity on the farms; already a large percentage of wheat is seeded. Most work is being done with tractors, and to be Irish, night shifts have been the order of the day. Most of the threshing left over from last fall has been completed, with, on the whole, gratifying results, the price of wheat at the present time compensating largely for the delay in marketing the crop.

• • •

On Wednesday, the Rev. H. Lawrence Nobbs, of Drumheller, visited this district, and called upon the Church of England members of the community, staying the night at the home of Mr. and Mrs. T. Unwin, where a service was held on Thursday morning.

• • •

Mr. Horrace Besse has had a bad attack of pneumonia this week, and has been in the hands of Dr. Hewson. At time of writing we are glad to report his condition much improved.

• • •

Mr. Ross Stinn is, we are glad to learn, completely recovered from his operation for appendicitis, and has returned home.

• • •

Mr. L. Reid, of Swift Current, has arrived on an extended visit to her brother, Mr. Chris Cullen.

• • •

Mr. and Mrs. W. T. Rudd, of Calgary, were visitors to Rockyford on Saturday.

• • •

In our last issue there was a mistake [illegible] Fulton's advt., a 23 furrow disc being advertised. This should, of course, be two three-furrow plows. Although there is no knowing what we may come to with machinery getting better all the time, but 23 furrow plows are not yet in general use.

• • •

The P.R. Camp C 3 pulled out on Saturday in charge of Mr. Art Lowe, who will be working in the Rockyford district for some time. Mr. Micky Clarence is a new and most popular addition to the personel of this camp.

• • •

Mrs E. Allen, of Rockyford, was taken suddenly ill and rushed to the Drumheller Hospital.

• • •

Mr. F. W. Gibson has returned after a couple of week's treatment in the hospital at Banff. We are glad to see him around again.

• • •

On Wednesday night of last week a few of the Rockyford boys motored to Carbon, where they were initiated in their branch of the Elk's Lodge, and the following Friday a number were initiated in the Calgary Elk's Lodge. The boys report a wonderful time.

• • •

On Thursday night Mrs. Hewson and Mrs. Ganteion were joint hostesses at a bridge party, about thirty guests were present. The prizes were won by Mrs. Henry Katterhagen and Mrs. D. R. Poole.

• • •

Mrs. J. A. Black and children are spending a couple of weeks at Provost, the guests of her mother, Mrs. Graham.

• • •

Mrs. Field, 2nd vice-president of the U.F.W.A., will speak at Bainiree on May 10th. Everybody welcome.

• • •

Don't forget the big dance on May 11th, under the auspices of the Canadian Legion, Rockyford Branch. The Jolly Boys Orchestra, of Calgary, will be in attendance. Come and help the good cause. Everybody welcome.

UNITED CHURCH SERVICES

—o—

Rockyford Pastoral Charge
Sunday, May 6, 1928

Landseer—Sunday School and Preaching Service, 11 a.m.

Valley Garden—Sunday School and Preaching Service, 2.30 p.m.

Rockyford—Sunday School at 11 a.m.; Preaching Service at 8 p.m.

The matter of the organization of the Valley Garden congregation for the coming year will be dealt with on Sunday at the close of the service. All are invited to attend.

Mother's Day will be observed in these congregations on Sunday, May 13th.

EXAMS

When the birds are singing gayly,
And Spring is in the air,
Teacher always lets me know,
Exams will soon be there.

It's Algebra in the morning,
Composition in the afternoon,
And someone's always telling me,
Exams are coming soon.

I struggle with Geometry,
And Physics is a bear,
But when I think of History,
I nearly pull my hair.

Its been Study! Study! Study!
From September until May,
And who's to know what they will ask
Examination day?

And even in my dreams I see,
Triangles and Paralelograms,
Oh, I wonder if in Heaven, we'll
Be pestered with Exams.

But when the days of June are ended,
And astride my bronc I'll be,
I'll wave my hat, and whoop and shout
"Exams, farewell to thee!"

—Tiger Lilly

BRITISH AIR MINISTER PLANS ON EXPANSION

—o—

LONDON—Sir Samuel Hoare, Secretary of State for Air, announced estimates of expenditure of £16,000,000 (approximately $81,000,000) for his office in the current year. The total sum represents an increase of £,000,000 (approximately $[illegible],000,000) over those of the previous year. With the ultimate hope of establishing an air mail route to India, subsidies to civil aviation have been increased by $95,000. Plans for co-ordinating the air forces of the British Dominions, especially by interchanging men of the Canadian and Australian air services with the Royal Air Force, were announced by Sir Samuel.

The co-operation with the Dominions will be calculated to insure identity of methods in training air forces for the entire British Empire.

The Royal Air Force itself would be increased from 69 to 73 squadrons, the Air Minister stated. The new squadrons would go to India, making a total of 83. Parachutes will be supplied to every aircraft capable of carrying one in the hope that present risks to fliers will be lessened.

Provision is made for two new flying boats which are described as "of great potentialities." One of these will be stationed overseas and both will be used to protect Imperial communications.

With the ultimate hope of establishing an air mail route to India, subsidies to civil aviation have been increased by $95,000.

—o—

GOVERNMENT TELEPHONE BUSINESS GROWING

—o—

A net increase of 448 new stations made up of 449 additional exchange stations and 51 fewer rurals is reported by the Head Office of the Alberta Government Telephone System for the first three months of the present year. New offices were opened during the month of March at Esther, Little Gem, and Hemaruka and continuous service was instituted at Wayne. Arrangements are now being made for the extension of the provincial toll system to Coal Valley, Foothills and Lovett on the Coalspur Branch of the C.N.R. and to Willingdon, Musidora, Derwent and Beaualvallon on the C.P.R. Cutknife-Whitford line. Collections have been good during the month of March showing an increase of $21,000 over the corresponding month in 1927.

—o—

PREPARING WHEAT MAP FOR PRAIRIE PROVINCES

—o—

OTTAWA—Data for the preparation of a wheat map for the prairie provinces is now being collected by the department of agriculture, L. H. Newman, Dominion cerealist, giving evidence before the house agriculture committee told of the scheme. The idea was that, when completed, these maps would tell the grain grower at a glance just what variety could be grown in a district with the greatest assurance. Mr. Newman in illustration observed that if Garnet had been grown last year in certain parts of Alberta, it would have meant millions of dollars difference to the province.

Mr. Newman gave some further details also of Reward, the new wheat for rust districts of which a thousand bushels for trial were distributed last year. Mr. Newman spoke hopefully of Reward. It could not be said that Reward would solve the rust problem, but Mr. Newman thought it marked a considerable advance.

NEW FORDS NEAR 2,000 A DAY PEAK

Two Plants Now Turn Out 1500—June 1 Expected to Reach 5000

—o—

NEW YORK—Two plants of the Ford Motor Company, located at vantage points for distribution throughout the United States, are now turning out from 1200 to 1500 cars a day, according to a Ford Company official who has just visited their headquarters here. He added that three more plants are to be opened before the end of the month will bring a total production up to 2000 cars a day.

The plants now operating are Detroit, Kearny, N. J.; San Francisco, Kansas City, Chicago, Seattle, Norfolk, Chester (near Philadelphia), Dallas, Louisville, Somerville (near Boston) and St. Paul-Minneapolis. The three to be opened by April 1 will be at Memphis, St. Louis, and Buffalo. In addition to these plants there are 19 others in the United States, which, according to the Ford official, will be opened as soon as possible, thus giving a nation-wide distribution at minimum of cost and time.

By June 1, it was predicted all Ford plants will be in operation and the daily output will be 5000 cars a day. At the peak of production of the former Model T, the output was between 8000 and 9000 cars a day. It was stated here that production on the new model will exceed this before the beginning of another year.

Present orders for Ford cars are reported at 700,000 and while there have been some cancellations by persons not willing to wait for deliveries, it is reported that new orders more than counterbalance these.

It was also stated by a Ford official that Mr. Ford does not expect to change the location of the gasoline tank on the new model from the front to the rear. Insurance rates on the new model are lower than on the old. A change from a gravity to vacuum feed, it was explained, would not be as desirable from an engineering point of view.

—o—

AIRPLANE SYNDICATE PROSPECT NORTH OF FORT CHURCHILL

—o—

OTTAWA—The Lindsley Syndicate, which has applied for exploration rights in the Northwest Territories, is to be granted some concessions from the Federal authorities, according to a report. The area to be granted them to prospect by airplanes, with exclusive rights for three years, comprises about 5,000 square miles and is 200 miles north of Fort Church. ill and inland. The territory is remote from civilization, with a few wandering tribe of Eskimo its only inhabitants and no mining prospector has ever been there or is likely to go in the ordinary way for many years. The syndicate is willing to spend $200,000 on its exploration work.

"THE STORE OF QUALITY AND SERVICE"

M. A. RELLINGER, PHONE 54

HEARD ON THE STREET

General: "Look here, my man, why don't you be careful?"

Army Clerk: "What is wrong, sir?"

General: "Why, instead of addressing this letter to the 'Intelligence Officer' you have addressed it to the 'Intelligent Officer.' You should know there is no such person in the army."

• • •

Mistress (to maid she is trying to train): "And mind you clean all the brass before you go!"

Maid: "I have, madam—all but your rings and bracelets."

• • •

Rufus: "Does y'al like greens "

Rastus: "We shuah does! Mah wife's out now seein' kin she fin' some of the golf kind Ah heard George Quirin talkin' about."

• • •

Squire: "Did you suffer badly from the floods, Mr. Giles?"

Giles: "I should think I did. Why, I was shut up in the house with the missus for nearly a week.

• • •

Mrs. Newlywed: "Now, George, dear if I do all the cooking for a month, what will I get?"

George: "You'll get my life insurance and freedom."

• • •

Mrs. Blank: "Henry, did you see anything in the paper about Mr. Blinker running over his mother-in-law?"

Mr. Blank: "Not yet. I haven't come to the sporting news."

• • •

A young barrister, conducting his first case, and pleading drunkenness as his client's defence, began his speech:

"Milord and gentlemen of the jury, you all know what it is to be drunk."

• • •

"So you want to marry my daughter?"

"Yes."

"Do you know anything about business?"

"Not much."

"Do you know the difference between an asset and a liability?"

"No."

"Well, you will after you marry."

• • •

Bobby's father raises purebred cattle. One day a woman from the city came to visit his mother. Bobby watched her closely. When his mother went to the kitchen for refreshments Bobby followed her.

"Mother," he exclaimed, excitedly, "is Mrs. Blank a full flood?"

"What makes you ask such a question?" his mother demanded.

"Well, you look when you go back out there and you will see she has tags in her ears."

• • •

Looking out of the window the other day Mike Moran remarked that it was easy to tell the street was once the cowpath of a good old cow town. Asked to explain why, he replied: "Look at the calves on it now."

• • •

Prospect: "I'd like to see one of your new cars."

Ray Melvin: "Four or six?"

Prospect: "Oh, one will do very nicely, for the present."

• • •

Lady: "Is this milk fresh?"

Homer Nelson: "Half an hour ago, madam, it was grass."

• • •

When Noah sailed the waters blue
He had his troubles, same as you.
For forty days he drove the Ark
Before he found a place to park.

• • •

A curry stylish young woman, which they say she's a painter, has came here an' rented a place for the summer. She got John Baptiste to fix up the yard an' when he got threw he says to her, "Now you'll have to water these here plants," says he, "an you'll need some hose," he says, "which you can get it down to Mr. Rellinger's" says he. So she put on her hat an' went right down there an' says to him, "I'd like some hose," she says. "What kind?" says Mr. Rellinger. "Why silk of course, she says, some haughty.

• • •

"Occasionally," observes Bob Hamby, "you see a man driving a car so carefully that you can't help thinking he must have paid cash for it."

• • •

Kissing a girl's hand may be sanitary, but so is quinine, snaps Jack Crellin.

• • •

Three married men met over a reunion dinner; and talked and wined until the hour was very late.

Feeling remorseful, each decided he would return home and obey his wife's first command, it being understood that if one failed to do so he would pay for the next dinner.

The next week they met again.

Said No. 1: "When I got home I was unlucky enough to stumble against the old grandfather clock in the hall, and at once my wife shouted down to me: "That's right, break the clock! So I broke it."

"That's curious," said No. 2. "I fell against the hatstand, and my wife shouted: "That's right, break the hatstand!" So, of course, I did."

"That's funny," said No. 3. "When I was creeping upstairs I slipped back a few steps, and my wife called out: 'That's right, break your neck' and so—well, the dinner's on me."

• • •

Mona Brane got all worked up yesterday because nothing hadn't seemed to go right. She broke a cup an' she upset her jelly on the kitchen floor an' she burnt the pie an' she scorched her best tablecloth. She couldn't keep back the teers no longer an' she says, "Oh, my goodness!" says she, "I wish I were dead!" she says. Jest that minnit Vera Pius walked in an' she helt up her hands in horror an' says she, "Oh Mora," she says, "don't tempt Providence that way!" says she. "Why," Mora says a-wiping her eyes, "I allers thought Providence were above temptation," says she.

PRINTING -

The quality of your printing is one of the most important factors in modern business today. Every piece of printed matter you send out should be a representative of your firm.

To accomplish this it is necessary to have the right selection of type—the correct color scheme—the most suitable paper. That is where the STANDARD PRINTERS can help you. Here you will find a plant operated by men who understand your requirements, and you'll be surprised at the very reasonable rates charged for printing of quality.

We will be glad to help you.

AMERICANS FIGHT CANADIAN PRODUCTS; BRITAIN WELCOMES

Canada has an exceedingly good customer in Great Britain, when it is considered that in 1927 Canada sold to that country over $400,000,000 worth of our products, while in return Canadian purchases amounted to $182,000,000, which certainly reads like sound business, and without such a market, prices for a great many commodities would be materially lower.

During the same period Canadians bought from the United States over $700,000,000, while our exports were less than $500,000,000.

Great Britain welcomes Canadian goods, while the Americans devise every possible means to keep our products out.

IMPROVE CONDITIONS AND NEVER MIND IMMIGRANTS

The immigration question is the subject that has the attention of the people from one end of Canada to another.

The solution that would satisfactorily solve the problem is attainable without any doubt, from the last person whose statement you happen to hear or read.

The Standard cannot see why all this fuss about the immigration question should be so persistent.

The average individual citizen would not be one iota better off were the population doubled or trebled.

The average individual finds more competition in every line than when the population was not more than half what it is.

It is all very well to discuss bringing in people to go on the land. Certainly they declare that is their objective, and it is to get permission to come to Canada, and soon a very large proportion for one reason and another drift into the towns and cities, and create no end of difficulties in the matter of securing employment for them, or forcing numbers of the untrained men out of employment, compelling many of them to seek assistance each winter from the municipal bodies to secure the ordinary necessities of life.

It certainly must be admitted that a larger supply of untrained workers does materially assist the larger corporations, especially in certain seasonal work, but not the individual citizen. Canada has a wonderful future if the outlook is sound that has been presented recently all over Canada by the clever oratorical contestants, and to such a country immigrants should be glad to be allowed to come. They should be sound in mind and health and have sufficient resources to take care of themselves, and no special inducements should be necessary to coax them to come to a country that presents the possibilities of men to earn an honest living under laws that protect life and property that has no superior in the world.

The early settlers who came to Canada did not need to be coddled and pap fed, and they were the pioneers who made Canada what it is today.

It should be a good policy to adopt to leave all these birds of the hothouse variety severely alone, and any special advantages that the respective governments have to offer, should be extended to the people who are Canadians, whether by birth or adoption.

It might be advisable for the Governments to finance farm loans over long terms at low rates of interest, and thus make it possible for thousands of hard-working industrious farmers to secure money at a low cost, which would help to make those now on the land who are working under a serious handicap, happy and contented in being able to view the time when they might be free of debt; which is possibly one of the heaviest loads that the business of the country now has to carry.

Never mind about immigrants, but take care of the people now in Canada, not by pampering, but by making it possible for them to make good under the most favorable conditions possible, not only financially, but in every other direction possible, and when that day arrives, instead of requiring to coax immigrants, Canada will be able to sit on the doorstep and make selections from those who are most desirable.

SCHOOL COLUMN

The Fourth Annual Inter-School Spelling Tournament will be held on May 25 at Carseland, under the auspices of the Bow Valley Local of the Alberta Teachers' Alliance.

There will be a separate contest for all Public School grades from II to VIII inclusive, and also one contest for grade IX pupils who entered High School in or since September 1927, are eligible for this, and one for grades X and XI.

Teams in any contest may not consist of more than four pupils, but may consist of less than four.

Two cups are to be competed for, one for grade VII and the other for grade VIII. The grade VII cup is at present held by the Strathmore School and the grade VIII cup by Carseland. Prizes will be given the winners in all classes.

The Inter-School Sports Day, also under the auspices of the local branch of the Alberta Teachers' Alliance, will be held early in June in Carseland.

The hearty co-operation and loyal support of all the schools of the District is needed to make these events the success they deserve to be.

Grade VIII and High School examination results for March and April will be published in tabulated form next week.

NAMAKA

The Ladies Aid will meet at the home of Mrs. Geo. Petersons on Thursday, May 10.

* * *

Mr. G. Wooster is visiting friends in Calgary.

* * *

Capt. McCall returned Sunday with the new airplane, flying south of Namaka on his way to Calgary.

* * *

Mr. Crowe, of Calgary is a visitor at the home of Mr. and Mrs. Baemner.

GRAIN CLEANING PLANT HAD BUSY SEASON

Approximately 40,000 bushels of registered Marquis wheat and Victory and Banner oats were cleaned, graded, registered and marketed by the Provincial Cleaning and Grading Plant at Edmonton during the past winter, states Field Crop Commissioner W. J. Stephen. In addition a considerable quantity of high grade registered and Number 1 seed has been sold on commission for farmers whose grain was not accepted at the plant, and a further 25,000 bushels of registered seed could have been disposed of if it had been available.

The fact that fully 95 per cent. of the grain passing through the plant was sold to Alberta farmers indicates a recognition of the value of seed grain which is clean, of good quality and true to variety.

THE SAYINGS AND DOINGS OF MANY PUBLIC MEN

The real balance of power in the House of Commons lies with the Liberal-Progressives and Saskatchewan Liberals, according to the Ottawa correspondent of the Toronto Star, who also says that both groups made strong representations to the government prior to the present budget, and were assured of tariff reductions. Speaking of the views of western members, he says: "One of the leading Liberal-Progressives pointed out that the government is pledged to further revision and should the pledge not be fulfilled, his group would withdraw support. This would mean a majority against the government.

"Another western member referred to Hon. Charles Dunning's criticism in former years of the Fielding budgets and said any cessation in tariff revision would be followed by the resignation of Hon. Robert Forke, Hon. Charles Dunning, Hon. W. R. Motherwell and Hon. Charles Stewart."

* * *

Although the Conservative members at Ottawa have been steadily advocating more protection, they have not taken a stiff enough attitude to suit the Montreal Gazette. Scolding them vigorously, it says: "The Conservative party, as represented in the House of Commons appears to be trying to be clever when it ought to be demonstrating its honesty. So far as the present session has gone, the attitude of the opposition toward the policy of protection for Canadian industries has been one of more or less artful dodging, and rather less than more. The principle of protection is championed by inference; it is not permitted to appear under its own name; it was implied but not proclaimed in the Conservative amendment to the budget, and yet that amendment was put forward as purporting to be a declaration of Conservative policy. This kind of thing is flattering to the government, since it is an imitation of the policy of evasion which the government has always pursued.

* * *

If at the end of the day you can say that you have caused no unhappiness to any one you have met, that you have lessened no one's belief in life or mankind, that you have helped the discouraged and added nothing to the vanity of the ostentatious, then you have done a decent day's work.

* * *

Mr. Lapointe is quoted in Hansard as follows:

Why glorify the United States at the expense of Canada? Why should hon. gentlemen describe the United States as a land where young Canadians can find gold and honey while here they meet taxes, unemployment and taxation. We do not ask them for fair play for the Government; we do not ask even for elementary justice. Let them ascribe the progress and prosperity of the Dominion to Providence if they prefer to do so; but we do ask them not to say anything that may hurt the name and credit of Canada. It is not true that Canada has any cause to envy the United States. I need only remind, you, sir, that it was not until the United States had a population of 75,000,000 that their total trade was equal to that of Canada's today."

* *

LONDON—"We need to refashion both dogma and worship by joining the spiritual intuition of Jesus to the understanding of the universe created by modern science," said Dr. Barnes, Bishop of Birmingham, in a sermon at Westminster Abbey today on "Changing the Setting of the Christian Faith."

He continued: "Scientific thought and investigation had led almost inevitably to the conclusion that in our universe there are many other planets bearing life, and on most the life has developed further, sometimes incredibly further, than on the earth. It is at least possible that in our universe there are numerous planets where beings exist vastly superior in intellectual power and spiritual understanding to ourselves. Who knows but that if we could analyze cosmic radiation by instruments of suitably delicate precision we might find in it waves carrying messages across the depths of space from beings who have learned to produce energy by annihilating matter and to whom our wireless is a commonplace of an almost forgotten past."

* * *

The rubber industry in Malay and the Far East owes its existence to the foresight of a Londoner, Henry A. Wickham, who in 1876 went into the Brazilian jungle and chose seeds from the best grade trees and transported them to Kew Gardens, where they were planted. The young trees were sent out to Ceylon, and later planted in Malay.

* * *

America and England, with all the differences which exist, still have a common language and an amount of common sense which will enable them to work together in increasing friendliness in the future.—Lord Balfour.

UNITED STATES IMPORTED 12,000 ALBERTA CATTLE

—o—

More than $500,000 worth of Alberta cattle was exported to the United States from July 1, 1927, to November 30, according to reports prepared by Samuel C. Reat, American Consul.

Approximately 12,000 head, including the three classes of export cattle, stockers, feeders and butchers, are shown by the consulate.

This total for the province includes 1,448 head, invoiced through the American Consular office at Lethbridge, and 3,871 exported from Edmonton.

According to Mr. Reat, United States Consul at Calgary, the American markets at the present time are very inviting to the cattle industry of the province of Alberta, although, since the passing of the tariff act of 1922 which imposed a duty of one and one-half to two cents a pound, the exports of cattle to the United States have been limited to the periods of shortage in this market. In 1923 only 1,933 head of cattle crossed the line from this province.

PLAN EAST-WEST FLIGHT

Phil Wood (top), aviator and speedboat driver, and Duke Schiller (bottom), Canadian aviator who was the first to reach the Bremen, are planning a flight from Ireland to Old Orchard Beach. They expect to leave during the summer.

GEO. H. HUTTON ADVISES RETAINING DAIRY CATTLE

—o—

That there was a great demand for good dairy cows in various parts of the United States, and that Alberta farmers and stockmen should retain their good animals in the meantime, was the advice of Geo. H. Hutton, superintendent of the agricultural and animal industry branch of the natural resources department of the Canadian Pacific upon his return on Tuesday from a visit to the other side of the line.

Dearth of Cattle

Mr. Hutton stated that in the town of Barron, Wisconsin, which was usually a big distributing point there were buyers the morning he was there, from Nebraska, New Hampshire, Connecticut, Massachusetts, and Illinois, and one man had been there for 16 days and had only bought 36 head of cattle.

"In face of all this, it is interesting to note," he said, "that last year the little town mentioned, shipped out 125 cars of Holsteins and 70 cars of Guernsey cattle."

Advice to Dairymen

Mr. Hutton said that a shortage of dairy cattle was likely to be felt in Western Canada before the end of the year and dairymen would therefore be well advised to retain all their promising heifers and good young cows.

Referring to conditions generally in Alberta, Mr. Hutton struck a decidedly optimistic note. The outlook, he said was decidedly encouraging. He said he had returned from the States via Lethbridge, and many farmers in the south were now on the land. He said he had been informed that threshing there would be completed in two or three days if the present weather held. With the splendid moisture in the land germination of the new crop would be most rapid once the seed was in the ground.

ALBERTA STREAMS BEING STOCKED WITH GAME FISH

—o—

A total of 1,624,675 potential game fish were distributed in Alberta fishing waters in 1927, according to the annual report of the Dominion fisheries branch. These included eyed eggs, fry and fingerlingers of Loch Leven, Cutthroat and Rainbow trout. In addition, nearly three million whitefish eggs were placed in commercial fishing waters in order to maintain the supply of fish for this growing industry in the province.
